---

When I try this code compiler says:

C:\upp\MyApps\App1\main.cpp: In function 'Upp::Pointf GoogleMapsGpsToPixel(Upp::Pointf, int, Upp::Size, Upp::Pointf)':

C:\upp\MyApps\App1\main.cpp:82: error: ambiguous overload for 'operator-' in  
'Upp::operator/(Upp::Size\_<int>, int)(2) - Google  
MapsGpsToPixelDiff(Upp::Pointf, int, Upp::Pointf)(zoom, Upp::Point\_<double>(((const  
Upp::Point\_<double>&)((const Upp::Point\_  
<double>\*)(& gps))))))'

Please, could some one help me fixing this?

Thanks a lot

Alex
