Hello Daniel

It would be good if you could add Json to GridCtrl.

The function could be:

```
template<> void Jsonize(JsonIO& json, GridCtrl& g) {  
    Vector<Vector<Value> > v;  
  
    if(json.IsLoading()) {  
        json("data", v);  
        g.SetValues(v);  
    } else {  
        v = g.GetValues();  
        json("data", v);  
    }  
}
```
