dolik.rce wrote on Fri, 01 February 2013 22:26PS: I think the proper format for web apps is that which is simplest to use In some cases a timestamp, in other cases YYYY-MM-DD or anything else that is simple to work with and that suits the clients side needs...

Input fields like `<input type="date"/>`, `<input type="datetime"/>`, tags `<time datetime="2013-02-01"></time>` expect YYYY-MM-DDTHH:MM:SS.SSS+ZHZM format, that's why I think it should be default in skylark.
