Hello,

when I've tried to compile my package (ubuntu 5.10, 607-dev1, precompiled theide 605) I got the following error:

```
/home/vega/upp/uppsrc/Draw/DrawX11.cpp: In function 'void InitX11Draw(const char*)':  
/home/vega/upp/uppsrc/Draw/DrawX11.cpp:222: error: 'UpdateSColor s' was not declared  
in this scope
```

The workaround was to comment the line
222 of DrawX11.cpp

```
// UpdateSColors();
```
