person wrote on Sat, 24 August 2013 03:53I found this .SetFastViewX() to be causing the behavior you describe.

Hope that helps

A self inflicted problem. Sorry about that.  
Thank you, that solved the missing spikes problem.

However the over zoom out one still present.

I tried

```
// NPOINTS = 1000 the number of points, where x = 0,1,2,...,999  
sv.SetMaxZoom(NPOINTS, -1);
```

and still managed to get something like:

by using the mouse wheel.
