Hello Oblivion,

What I would like to say is that both topics concern on broken compilation. But, it seems that your source is a little bit different (PDB not declared vs wrong template argument). Anyway, thanks for reporting I will add your compilation message to appropriate topic on redmine.

P.S.

Redmine topic about broken compilation:

<http://www.ultimatepp.org/redmine/issues/836#change-1724>

Sincerely,
Klugier
