Hi,

Here is a simple test case, which highlighted the problem (attachment)

```
MValue GetTuple()
{
    MValue r;
    r.Add("a", "b");
    return r;
}
```

```
CONSOLE_APP_MAIN
{

    MValue v = GetTuple();

    DUMP(v.Get("a"));
}
```

the output is:

```
String &MValue::Get(void)
error:Not a String value type
String &MValue::Get(void)
String &MValue::Get(void)
error:Not a Tuple value type
v.Get("a") = error:Not a Tuple value type
```
