
Subject: A small issue with CodeEditor

Just adding a CodeEditor to a window and setting line numbers and edit marks to true makes the edit mark be displayed over the line numbers.

This happens in all samples, except TheIDE, which somehow fixes this. I was not yet able to track down the issue but I'm investigating it.

I attached a simple test case. Just type something in the editor and the blue mark will be placed upon the "1" in line 1.
