Hello,

It shouldn't be, so hard - or you have degenerated TheIDE. Here is my simply tutorial - setup upbbox as regular assembly with - here is my setup (/home/klugier/upp/upbbox;/home/klugier/upp/uppsrc).

All you need to do is just select following package inside TheIDE:

Then you need to find this file and edit it with topic designer - should happens automatically when you select file:

Please do not edit .tpp file manually - it can lead to problems with file.

Sincerely,
Klugier
