I think this is just accidental.

I have fixed it this way:

```
Vector<String> RegExp::Make_rv(const String& r)
{
    RegExp reg("\\((\\r|\\n|.)*?)\\");

    Vector<String> rv;

    while(reg.GlobalMatch(r)){
        rv.Add(reg.GetString(0));
    }

    return rv;
}
```
