3togo wrote on Wed, 27 September 2006 05:53 If I removed the whole directory of ~/.theide and run /usr/bin/ide (version 609-dev3),

I will get the following errors:

```
root@jc-desktop:/home/jc# /usr/bin/ide
```

```
terminate called after throwing an instance of 'Exc'
```

```
Aborted
```

Strange, this looks like -fexceptions problem once again.

How have you compiled theide? Do you have -fexceptions in build method?

Mirek
