Subject: Draw linker errors with freetype 2.10.4

Hello,

My Manjaro-linux system upgraded Freetype2 to 2.10.4
This gives me a linker error with 'FT_Get_X11_Font_Format' not being found.

This function seems deprecated (see <freetype2/freetype/ftfntfmt.h>), and should be replaced by 'FT_Get_Font_Format'
but doing so in Draw/FontFc.cpp does not help.

when I #include <freetype2/freetype/ftfntfmt.h> all seems ok again.

regards,
