hi

i have small problem with trayicon example,
when trayicon (or eyecare) is running and i want shutdown
a computer, windows shows a window with message:

```
|End program - trayicon.exe
|-----
|
| progress bar
| #####
|
| If you choose to end program.....
|
|         -----
|         | End now |
|         -----
|
```

and 2nd message in same window

This program not responding

how can i resolv this?

bye
