mirek wrote on Thu, 19 September 2024 03:53 Sorry, only fixed Win32... Now MacOS and Linux should be fixed as well.

The above problem is fixed. Now we are almost sure that U++ will not hindering people who wants to use the most recent language features.

When try to build UPP/AllFor18N, with CLANG+c++23, I got the following errors:

Quote:/home/lance/upp.src/uppsrc/MySql/MySql.h (9): fatal error: 'mysql.h' file not found

And

Quote:

/home/lance/upp.src/uppsrc/plugin/dbf/dbf.cpp (198): error: no viable conversion from returned value of type 'StringBuffer' to function return type 'String'
