mirek wrote on Wed, 18 December 2024 05:05Novo wrote on Mon, 16 December 2024 07:21It looks like there are problems with icons on Mac.
I checked this on MacOS 15.1 arm64.

This icon is actually loaded from web, as part of search engine intialisation. Most likely you have initialised the IDE in UHD mode, then switched to HD mode. The IDE loaded these icons for UHD.

Still something to fix (I guess we will need to store both), but I do not think it is critical for stable update.

I didn't do anything special.

I just launched TheIDE and I didn't switch anything anywhere

It turned out that this problem is related to the current master branch.
2024.1.1 rc is fine.
