Hi,

The Calendar & Clock "title bars" are unreadable (white numbers on a light gray background). It is so on the nightly build.

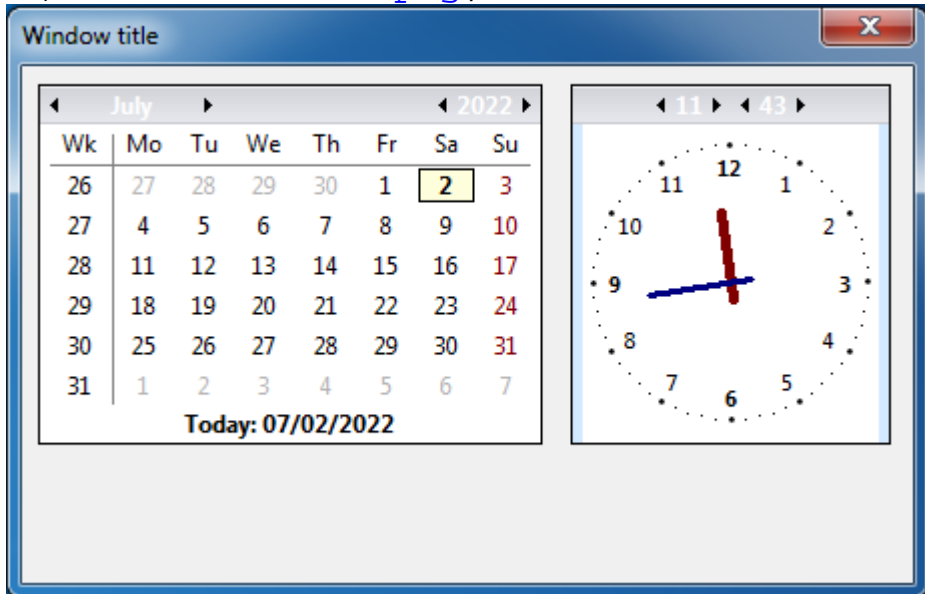

See attached .png.

Is there a way to change the Calendar and Clock "title bar" background and font colour?

Thanks.

Should anyone be interested. Here is how I fixed the clock.

```
Clock& Clock::SetStyle(const Style& s)
```

```
{  
    style = &s;  
    //nbg = CtrlImg::Bg();  
}
```

```
nbg = Colorize(Ctrllmg::Bg(), s.header, 150); // Fom the old class
Refresh();
return *this;
}
```

Hello,

I created PR #84 to address this issue. Thank you for the code that do the job.

Klugier

Hi Klugier,

Happy to help.
