I'm trying to add a ToolBar to StatusBar. I find no matter how I adjust the StatusBar and ToolBar, the ToolButton's bottom edge(when mouse hover) is not shown(or be covered) unless using very small icons(12*12). also, I do not know how to get ToolBar and StatusBar 's sizes that I can adjust ToolButton's icon size to make a perfect fit.
here is my code:

```
tbTools.Set(THISFN(MakeBar)); // this is ToolBar
tbTools.RightPosZ(0).VCenterPosZ();
status.Height(28);
status.Add(tbTools); // add toolbar to statusbar
```

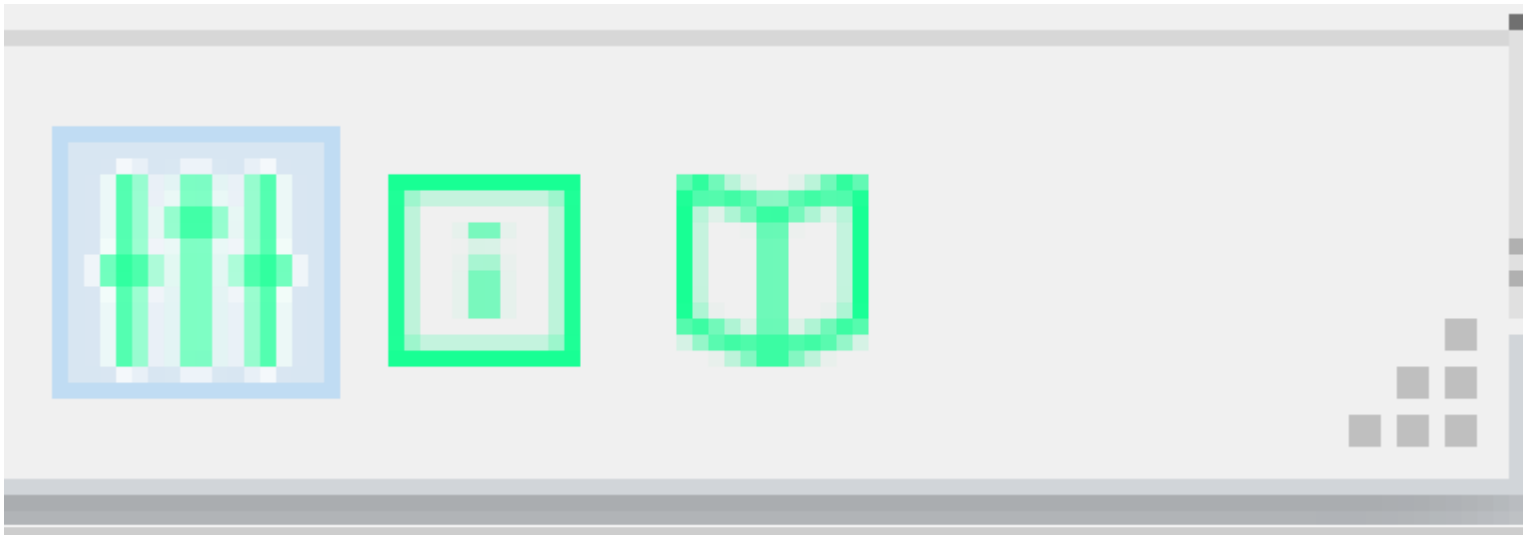

I put 2 pictures(zoomed in) to show the effects of 16X16 and 12X12 icons with hilight(mouse hover).

Hi,

use

status.AddFrame(tbTools);

instead of

status.Add(tbTools);
