hello all

why when i try to execute a query like this

insert into FILES values (432,2,2,3,"section-3.pdf","1.2 MB","
http://cisclub.com/forum/attachment.php?attachmentid=4256&am p;d=1238883167","")

the programs have run time error

and when i remove the '?' from the link there is no errors ?

Please, next time, more info....

Anyway, if you do this:

sql.Execute("insert into FILES values (432,2,2,3,\"section-3.pdf\",\"1.2 MB\",\"
http://cisclub.com/forum/attachment.php?attachmentid=4256&am p;d=123888316\7",\"\")");

then the problem is that ? is a placeholder for actual parameter.

Mirek

how can i fix it ??

thx in advance

- use SqlExp

- or use placement parameter(s):

```
SQL.Execute("insert into FILES values (?,?,?,?,?,?,?)",
        432,2,2,3, "section-3.pdf", "1.2 MB",
        "http://cisclub.com/forum/php?attachmentid=4256&am p;d=123888316",
"");
```

Mirek
