Hello.

I suggest to fix some typo in the Highlight.cpp code from:

```
static const char *upp_macros[] = {  
    "CLASSNAME", "THISBACK", "THISBACK1", "THISBACK2", "THISBACK3", "THISBACK4",  
    "PTEBACK", "PTEBACK1", "PTEBACK2", "PTEBACK3", "PTEBACK",  
    "QUOTE", "XASSERT", "NEVER", "XNEVER", "CHECK", "XCHECK", "ASSERT",  
    "NAMESPACE_UPP", "END_UPP_NAMESPACE",  
    NULL  
};
```

to:

```
static const char *upp_macros[] = {  
    "CLASSNAME", "THISBACK", "THISBACK1", "THISBACK2", "THISBACK3", "THISBACK4",  
    "PTEBACK", "PTEBACK1", "PTEBACK2", "PTEBACK3", "PTEBACK4",  
    "QUOTE", "XASSERT", "NEVER", "XNEVER", "CHECK", "XCHECK", "ASSERT",  
    "NAMESPACE_UPP", "END_UPP_NAMESPACE",  
    NULL  
};
```

Additional PTEBACK -> PTEBACK4.

Edit:

Fixed in 2139 revision.
