i got a question about AddChild..

I try to put a custom ctrl(derived from Ctrl) on RichTextView. but AddChild doesn't work..

```
CustomCtrl cc;  
RichTextView RTView;  
RTView.AddChild(&cc);
```

how to fix it.thanks

You have to specify control position and dimension.

I.E.

```
CustomCtrl cc;  
RichTextView RTView;  
RTView.AddChild(&cc);  
cc.LeftPos(10, 80).TopPos(10, 30);
```
