Hi guys,
how can i set an EditDoubleSpin with
initialized value = 100
upper limit = 100
lower limit = 1
spin = 1 ????

EditdoubleSpin(double inc =0.1) works and allow me to set spin.
EditdoubleSpin(double max, double min, double inc =0.1) doesnt work with me...

here the error

error C2274: 'function-style cast' : illegal as right side of '.' operator

Regards,
Matteo

Hi Matteo,

I'm not exactly sure what the error means (I'm not a windows programmer), but the constructors

for Edit*Spin are deprecated, so you should use it like this anyway:class App : public TopWindow
{
 EditDoubleSpin eds;
public:
 typedef App CLASSNAME;
 App(){
  eds.MinMax(1,100);
  eds.SetInc(1);
  eds<<=100;
  // ...
 }
};

Best regards,
Honza
