Doing some tests with u++ I've tried to compile SvgView from bazaar and got the error below:

```
/home/mingo/upp/bazaar/PainterSvg/ParseSvg.cpp: In function 'void
Upp::SvgPaint_Text(Upp::Painter&, Upp::XmlParser&, Upp::Svg2DTransform, Upp::SvgStyle)':
/home/mingo/upp/bazaar/PainterSvg/ParseSvg.cpp:506:35: error: conversion from 'Upp::String' to
non-scalar type 'Upp::StringBuffer' requested
Error in ParseSvg.cpp StringBuffer stext = xp.ReadText();
```

Thanks in advance for your time and attention !

Hello mingodad

There are some fixes for MinGW to be uploaded.

In few days they will be uploaded.

If you need it today I can post the fixes.

Thanks anyway, as I said I was making some random experimentation with u++ to get familiar with it and casually found this.
